

Bird Mobile

1. Cut out different colored bird pieces using pattern above (we used felt, but you could use any cute fabric scraps or quilt squares). Our mobile has 5 birds total.
2. Hand stitch bird together following pattern (leave a bit of room to stuff).
3. Stuff and close stitching.
4. Add wings with an X stitch as shown in the pattern.
5. Hang 2 small branches from ceiling with twine or colored string.
6. Hang a small piece of the same twine or string over a branch to the desired length and attach in between the bird's wings with hot glue or stitch in place.
7. Continue to attached birds as you like!
